METAL STORAGE CABINETS

Makerspace Storage System

Design a workspace with plenty of storage to keep equipment and supplies neat and organized. The Lorell Makerspace Storage System features bin units and doored units with shelves that combine to create a modular, flexible storage system ideal for the education and business markets.

- Units with bins or doors
- Pull-out bins allow for easy transport of tools and materials
- Mobile options for easy portability
- Cabinets with legs are raised off of potentially wet or damp floors
- Easy to install thanks to the bolt-together design
- Upper cabinets attach to locker cabinets or mount to the wall
- Contains 28% recycled materials
- Greenguard Gold Certified
- Covered by Lorell Limited Lifetime Warranty

CHAIR FEATURES

Chair Feature Information for Chairs on pages 65-100, 127, 128. The diagrams below identify those features that best suit your needs. The number key matches the examples found throughout the seating section.

Height & Depth Controls

1. Pneumatic Seat-Height Adjustment
Regulates height of chair relative to floor.

2. Back-Height Adjustment
Positions lumbar support within a fixed range.

3. Seat-Depth Adjustment
Positions chair back relative to seat.

4. Seat Glide Mechanism
Seat cushion travels forward and back, then locks into position.

5. 360 Degree Swivel
Standard on every executive and task chair.

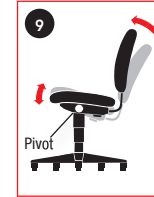

6. Tilt
Pivot point located directly above center of chair base.

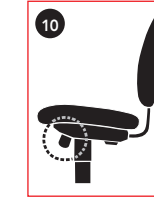

7. Mid-Range Knee Tilt
Pivot point located slightly ahead of center of chair base. Allows user to recline at a slightly more relaxed angle than conventional tilt.

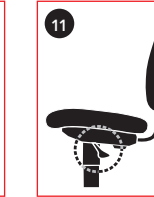

8. Knee Tilt
Pivot point located near front edge of chair. Allows user to keep feet flat on floor while chair reclines.

9. Dual-Action Synchro Tilt
Back reclines at a 2-to-1 ratio to seat angle. Allows user to recline while keeping seat cushion relatively level to floor.

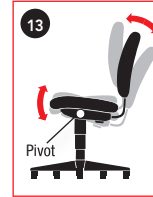

10. Tilt Tension
Controls rate and ease of recline.

11. Tilt Lock
Locks out tilt function when chair is in upright position.

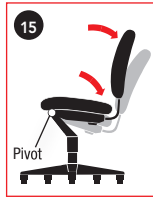

12. Posture Mechanism/Lock
Back angle adjusts independently of seat, and can be locked in an infinite number of positions.

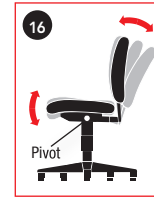

13. Multi-Task Control
Adjusts seat and back angles with a single lever (infinite locking within a fixed range).

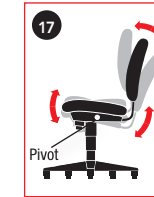

14. Asynchronous Control
Three levers modify:
• Angle of back relative to seat
• Tilt (free float or infinite locking within a fixed range)
• Forward tilt

15. Synchronized Knee Tilt
Back reclines at a 2-to-1 ratio to seat angle. Pivot point located near front edge of chair.

16. Dual-Clutch Posture Control
Adjusts seat and back angles independently with two levers (infinite locking within a fixed range).

17. Variable Synchro Tilt
Back reclines at a 2-to-1 ratio to the seat. Chair can tilt freely, or lock in position. "Forward angle" control provides an extra 5 degrees in the range of motion.

18. Inverse Synchro Tilt
With automatic tension control opens torso for better circulation. "Zero lift" seat front helps keep feet on the floor when reclining. Tilt limiter controls range of motion.

19. Independent Seat and Back
Seat and back flex independently for automatic comfort

20. Integral Lumbar Support
Easily adjusts to enhance comfort

Arm Options

Adjustable-Height Arms

Provide improved upper-torso support. Can be adjusted periodically to relieve strain and provide variety.

Quick-adjust design places arms close to body for keyboarding, or out to sides for ease of entry.

Each arm rotates 30 degrees and adjusts 2 1/2" in height. Position inboard for keyboarding, outboard for entry and exit.

Chairmat Selector Guide

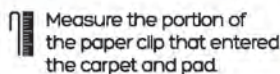

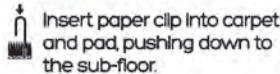

1. Determine surface:

FOR CARPET

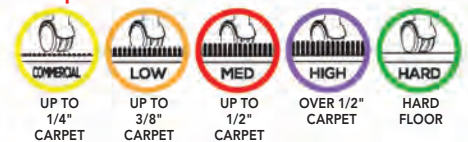

2. Determine use. For greater use, weight or carpet thickness, move right:

3. Measuring your carpet thickness:

Carpet thickness:

4. Measure your space:

Extend the life of your carpet, or hard floor with a chairmat.

The rolling casters of a chair can tear and pull at carpets or create marks in hard floors – but a chairmat acts as a line of defense against any damage. They also help your chair roll smoothly, helping to prevent any unnecessary strain.

Studded/ Gripper Back
Notched studs grip carpet, but won't pierce or damage carpet backing.

Smooth Edge
Smooth edge for easy-on/easy-off chair movement.

Crystal Clear
Transparent mats let the beauty of your flooring shine through.

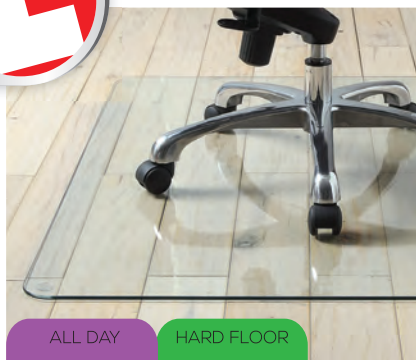

Anti-Static
Designed for use with sensitive electronic equipment. Chemically formulated to dissipate static electricity before it has a chance to damage sensitive equipment.

Checked Back
Premium mat features innovative checkered grid on bottom for optimum carpet grip.
